

The following pharmacies are participating in the H1N1 vaccination program:

(we will update this list as more information becomes available)

All participating pharmacies must adhere to the risk priorities set by the Center For disease Control. They are as follows:

- Pregnant women
- Children 6 months through 18 years old
- Young adults 19 years through 24 years old
- People who live with or care for children less than 6 months old
- People age 25 - 64 years who have a medical condition that put them at higher risk for influenza-related complications
- Health care workers
