

Benton-Franklin Health District Daily COVID-19 Case Report

March 25, 2020

Benton-Franklin Health District is reporting 2 new cases today, including 1 death. The official case count in Benton County is 13 and Franklin County is now 8.

Confirmed Positives:

- A Franklin County man in his 30s

Epidemiological Linked Cases:

- A Benton County woman in her 90s who is deceased

Due to the increased numbers of cases and more data flowing into the Health District that needs to be analyzed, we are no longer able to provide specific information about all cases as we did earlier in this outbreak.

We are aware that there are other reports of multiple people with COVID-19 like illness in our community that are pending test results. The community should continue to abide by all social distancing recommendations.

We are committed to providing accurate information while respecting the medical privacy of those who become ill with COVID-19.

Please note: BFHD's case report format and time of posting may be changing in order to align with guidance from the Washington State Department of Health.
